### ITALIAN

1. Monta il tuo PodMic USB su un supporto o un braccio snodato.
2. Usa l'uscita XLR per collegarla a un'interfaccia audio o a un mixer.  
**O**  
Usa l'uscita USB-C per collegarla al tuo computer, tablet o telefono, e l'uscita cuffie da 3,5 mm per il monitoraggio.
3. Inserisci il filtro anti-pop sul microfono per una

protezione aggiuntiva contro le plosive.  
Scarica RØDE Central per applicare elaborazioni all'audio USB e aggiornare il firmware:  
[rode.com/apps/rode-central](http://rode.com/apps/rode-central)

#### SPANISH

1. Monta tu PodMic USB en un soporte o brazo giratorio.
2. Utiliza la salida XLR para conectarla a una interfaz de audio o mezcladora.  
**O**  
Utiliza la salida USB-C para conectarla a tu ordenador, tableta o teléfono, y la salida de auriculares de 3,5 mm para el monitoreo.
3. Desliza el filtro antipop sobre el micrófono para una protección adicional contra las explosivas.

Descarga RØDE Central para aplicar procesamiento al audio USB y actualizar tu firmware:  
[rode.com/apps/rode-central](http://rode.com/apps/rode-central)

#### POLISH

1. Zamocuj swój PodMic USB na statywie lub ramieniu.
2. Użyj wyjścia XLR, aby podłączyć go do interfejsu audio lub miksera.  
**LUB**  
Użyj wyjścia USB-C, aby podłączyć go do komputera, tabletu lub telefonu, a wyjście słuchawkowe 3,5 mm do monitorowania.

3. Wsuń filtr przeciwwstrząsowy na mikrofon dla dodatkowej ochrony przed wybuchami dźwięków.

#### NORTH AMERICA

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that

may cause undesired operation.

Please note that changes or modifications of this product is not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected

-- Consult the dealer or an experienced radio/TV technician for help
