

K612PRO

REFERENCE CLASS HEADPHONES

Natural sound imaging for professional monitoring

The open-back dynamic K612 PRO delivers brilliant details and a full spacious sound. A 2-layer diaphragm manufactured in patented Varimotion™ technology ensures superior sound imaging. The stylish design complements a self-adjusting glove leather headband with aluminum arches and solid rivets. A two-layer diaphragm with AKG's patented Varimotion design virtually eliminates distortion and delivers exceptional imaging.

HIGHLIGHTS

- » **A high-performance neodymium magnet structure complements the flat wire voice coil**
- » **Breathable velour ear pads that cradle the ears while enhancing bass response**
- » **Maximum wearing comfort with genuine self-adjusting leather headband for automatic fit**
